

## **Consent for Classroom Photography/Videotaping (staff)**

The Speech-Language Pathologists (SLP team) of the Upper Canada District School Board is involved in an exciting project exploring the use of technology in the classroom. Your classroom is equipped with a SMART Board. In order to measure the effectiveness of this technology, and to assist with training, we would like to photograph and/or videotape teachers in the classroom using the SMART Board. By signing this consent form, you give the Upper Canada District School Board permission to include you in photographs and/or videotapes of SMART Board use in the classroom. The images (photos and/or videos) will be used solely for educational purposes – presentations to school staff, school board committees, conferences, and/or at training sessions. Every attempt will be made to never identify you by full name, and your school name/location will not be identified when images are shown. Images will not be distributed (copied) beyond viewing.

**I give permission for UCDSB SLP Team to videotape me for the purposes of sharing educational information.**
